## **Background**

# sculpture by the sea

Founded by David Handley in 1997, *Sculpture by the Sea* is an annual free to the public series of exhibitions staged along the Bondi to Tamarama coastal walk in Sydney in October/November and Cottesloe Beach in Perth in March.

*Sculpture by the Sea* is the largest free-to-the-public sculpture exhibition in the world.

The aims of *Sculpture by the Sea* are many and varied. Initially, *Sculpture by the Sea* aimed to create a major free-to-the-community event for the people of Sydney and its visitors that was quintessentially Australian. There was a wish to facilitate the work of artists and to provide a free to the public cultural activity. Very quickly the exhibition became a focus for sculptors and sculpture in Sydney and Australia.

Although not initially established with a view to attracting significant sculpture sales, the exhibitions do generate a large amount of sculpture sales including from the 'Sculpture Inside' gallery. For the past 10 years we have actively promoted the sale of sculpture at *Sculpture by the Sea* and are proud of our role in generating significant income for many of the artists in our exhibitions and of the important contribution that the commission from sales contributes to our exhibition's revenue.
