

ENDLESS LOOPS!

Keizo Ushio's sculptures are frequently based on a Möbius strip

Look closely and discover where the shape starts and where it ends

AT HOME complete this activity and discover the magic of the endless loop...

1

Cut a strip of paper

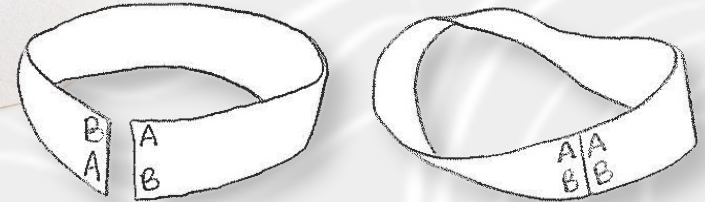

2

Flip and twist one end of strip over and join to the other end with tape

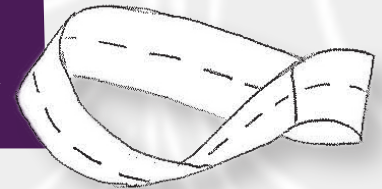

You will need:

- A3 paper
- Scissors
- Tape
- Pencil

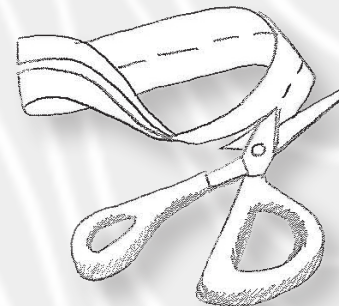

3

Draw a line along the middle of the strip of paper, go all the way around until you end back where you started

4

Carefully cut along the line

What happens when you cut the Möbius strip along the middle? Keep repeating this!
