

Aluminium - the essential metal Alcoa Australia produces - is favoured by many sculptors because of its strength, light weight and non-corrosive properties. These same attributes make aluminium an essential component in many of the things people see and use every day - from bikes and buses, mobile phones and medical equipment to solar panels and skyscrapers.

The Alcoa Aluminium Sculpture Trail

This year 14 artists from across Australia and India are using aluminium in their sculptures.

- 2 Vaughn Bisschops*
- 9 Stephanie De Biasi
- 18 Richard Tipping
- 28 Jon Tarry*
- 32 Ayesha Singh*
- 34 Richard Hammer
- 35 April Pine*
- 41 Anton Lord*
- 47 Lois Basham
- 49 Steve Tepper*
- 51 Simon Harris
- 56 Tim Haynes*
- 59 Jason Hirst*
- 64 Anne Neil*
